

## About Me

I have spoken at events for government officials, businesses, students and the public in North America, Europe, Asia, Africa and the Middle East. I have spoken on creativity, innovation, entrepreneurship and e-business. I have spoken in conference halls and meeting rooms; on radio and on television.

My talks are energetic and thought provoking. I get audiences excited about new ideas and thinking about important topics. I provoke laughs and thinking.

Want something different? I can incorporate interaction, movement and even meditation in my talks. With associates, I can include dance and classical music in my talks. But if you just want an inspiring talk, don't worry. I do that too, of course!

Want something more comprehensive than a talk? I can design and deliver interactive workshops and masterclasses tailored to your needs.

### Clients

I have worked with organisations as diverse as Toyota, Yamaha, Canon, PepsiCo, Genentech, TE, Afton Chemical, Chemtura, The Nation Publishing Group, Coldwell Banker, Business Venture Promotion, Thai Danu Bank, Southeast Water, Powercor, Dexia, The European Commission, the government of Dubai and many more, big and small.

## What Clients Say

### Speeches

"An energetic & stimulating speech on the future of creative idea generation!!" – TEDxULB (Université Libre de Bruxelles)

"The morning after your talk, I woke up with a head full of ideas about how to solve a problem that had been bugging me for ages." – EU official

"The one hour talk introduced a completely new way of problem solving." – Indian Institute of Technology (IIT) Mumbai

### Workshops

"This is one of the best workshops we have ever organised. It is highly intellectual, splendid with extraordinary resources and activism. We really appreciate your remarkable efforts, exemplary cooperation, humble attitude and excellent interaction with our team." – Almajdouie

"I could not be more pleased with the final result. In spite of the fact that the workshop participants were people who, I think, would never try to participate in an event devoted to creativity - company and university top managers - Jeffrey made them enjoy creative thinking and produce a result that, if implemented, will give origin to many improvements in the Algarve region." – APGICO (Portuguese Association for Creativity and Innovation)
